## OUR HISTORY

With a rich and storied history spanning several decades, our sheet metal fabrication company has established itself as a trusted and reliable partner in the industry. Since 1862 we have been committed to delivering high-quality sheet metal solutions to clients across various sectors.

Our journey began with humble origins, starting as a small family owned business in Enfield. Over the years, we have steadily grown and evolved, adapting to the changing needs of the market and expanding our capabilities to meet the demands of our clients.

Throughout our history, we have weathered economic challenges, technological advancements, and industry shifts. Our ability to adapt and innovate has been instrumental in our sustained success.

Along the way, we have built lasting relationships with our clients, earning their trust and loyalty through our unwavering commitment to excellence. Our team of skilled craftsmen, engineers, and technicians bring years of experience and expertise to every project, ensuring precise and reliable fabrication solutions.

Our dedication to quality and customer satisfaction has earned us a solid reputation within the industry. We have proudly served a diverse range of clients, including those in the automotive, aerospace, construction, and electronics sectors, among others. From custom prototypes to large-scale production runs and many more.

## LOOKING INTO THE FUTURE

Looking towards the future, we are excited to build upon our legacy and continue to provide top-notch sheet metal fabrication solutions. With our rich history as a foundation, we are confident in our ability to navigate the ever-changing landscape of the industry and deliver excellence for years to come.

## OUR SHEET METAL FACTORY

Our state-of-the-art sheet metal factory, located in Enfield, serves as a hub for our industry-leading sub-contract fabrication operations. We specialise in providing high-quality metal components to various manufacturing sectors, including automotive, retail, electronics, agricultural, and technology.

At DC Manufacturing, we understand the diverse needs of our clients and aim to deliver exceptional solutions. Whether it's large-scale production or custom fabrication projects, we have the expertise and capabilities to meet the demands of businesses across the globe. Our team combines their skills, knowledge, and experience to offer integrated solutions tailored to the specific requirements of each client.

With a focus on precision, quality, and customer satisfaction, we have built a reputation as a trusted supplier within the sheet metal fabrication industry. Our commitment to innovation and investment in advanced manufacturing technologies ensures that we remain at the forefront of the sector, delivering excellence in every project we undertake.

Partner with DC Manufacturing for your sheet metal fabrication needs and experience the expertise, reliability, and exceptional service that have made us a preferred choice for leading companies in various sectors.

## INVESTMENT AND INNOVATION

DC Manufacturing boasts a cutting-edge facility that uses industry leading technology, allowing us to operate round the clock, every day of the week. Our unwavering commitment to investment planning ensures that we maintain our position at the forefront of the industry, equipped with the latest most advanced machinery and equipment for the metalwork sector.

By continuously upgrading our manufacturing capabilities, we stay ahead of the curve and deliver exceptional results to our clients. Our state-of-the-art machines and equipment enable us to meet the evolving needs and demands of the metalwork industry, while maximizing efficiency and productivity.

With a focus on innovation and staying ahead of new technologies, we ensure that our facility is equipped with the most sophisticated tools available. This enables us to deliver high-quality sheet metal fabrication services that exceed industry standards.

At DC Manufacturing, we understand the importance of investing in cutting-edge technology to enhance our capabilities and maintain our competitive edge. Our commitment to staying at the forefront of the industry ensures that our clients receive the highest level of service, efficiency, and precision in every project.

# ABOUT DC MANUFACTURING

At DC Manufacturing, we proudly serve a diverse customer base across various sectors. Our commitment to excellence and versatility in sheet metal fabrication enables us to cater to the unique needs of clients from different industries.

# SERVICES

With our state-of-the-art facilities and cutting-edge technology, we deliver precision and excellence in every aspect of the manufacturing process..

## CAD DESIGN

Our specialist design engineers will work closely with you to understand precisely what you need - using the latest computer-aided design (CAD) software to create detailed drawings based on your specific requirements.

## CNC MACHINING

We employ advanced profiling techniques to precisely shape sheet metal materials according to your specifications. With our state-of-the-art equipment, we ensure accuracy and consistency in every profile.

## LASER CUTTING

Leveraging the power of laser technology, we offer precise and efficient metal fabrication services. Our laser cutting capabilities enable us to create intricate designs with utmost accuracy and speed

## METAL PUNCHING

We utilize high-quality metal punching equipment to create holes, notches, and other features in sheet metal. Our punching services are designed to meet your specific requirements with precision and efficiency.

## METAL FOLDING

Our skilled technicians excel in metal folding, bending sheet metal to create complex shapes and forms. With meticulous attention to detail, we achieve precise and reliable results.

## METAL FABRICATION

Our expertise in sheet metal fabrication ensures that we can handle even the most intricate and complex projects. From welding and riveting to fastening and finishing, we deliver superior craftsmanship and attention to detail.

## POWDER COATING

To enhance the durability and aesthetic appeal of your sheet metal components, we offer powder coating services. Our skilled technicians apply a high-quality powder coating finish, ensuring long-lasting protection and a professional appearance.

## ASSEMBLY

Our comprehensive subcontract manufacturing capabilities include assembly services. Our skilled teams excel in assembling sheet metal components, ensuring seamless integration and functionality.

# SECTORS

At DC Manufacturing, we proudly serve a diverse customer base across various sectors. Our commitment to excellence and versatility in sheet metal fabrication enables us to cater to the unique needs of clients from different industries.

## CONSTRUCTION

With extensive experience in the manufacturing industry, DC Manufacturing is well-equipped to meet the needs of the construction sector. We have successfully manufactured a wide range of products specifically tailored for construction applications.

## ELECTRICAL

We offer sheet metal fabrication services for the lighting sector. Our capabilities include manufacturing components and assemblies that contribute to efficient and aesthetically pleasing lighting solutions.

## PUBLIC SECTOR

We provide sheet metal solutions for the agricultural sector, offering components and assemblies that meet the rigorous demands of this industry.

## ARCHTECURAL

Our sheet metal fabrication services encompass the production of street furniture, including benches, bollards, and other urban infrastructure elements.

## HEALTHCARE

We specialize in manufacturing and assembling a range of seating and bed products for medical and healthcare environments. Our focus on quality and functionality ensures that our products meet the strict standards of the healthcare industry.

## AUTOMOTIVE

DC Manufacturing is a trusted partner in the automotive sector. As a leading UK sheet metal fabricator, we deliver high quality components and assemblies for automotive applications, meeting stringent industry standards.

## SECURITY

Our expertise extends to the security sector, where we offer sheet metal fabrication solutions. With our advanced manufacturing capabilities, we provide components/assemblies that contribute to secure environments.
